

# SPRINGWATER MFG.

## Why purchase Homestile Roofing metal tile panels?

*Homestile Roofing metal tile panels are a graceful and durable roofing material suitable for all pitched roofs applications 3/12 and higher. It is one of the most light-weight roofing materials. Therefore easier to install ,and a heavy roof support structure isn't required..So if your looking for durability with a modern style for your structures please contact us!*

*Installing metal roof panels combined with proper ventilation provides the homeowners with:*

- . High performance and durability*
- . Reduced energy consumption (heating and cooling)*
- . A maintenance-free roof*
- . Increased property value*
- . Enhanced curb appeal for your home*
- . 26 gauge lightweight roofing material, which decreases the stress on your home structure.*
- . increased protection from high winds, fire and hail*
- . A environmentally friendly choice*
- .44" wide panels cut to any desired length*

Customer's # 1 Choice in Metal Roofing.
